1. PROBLEM STATEMENT

Describe the city, county, or jurisdiction this grant will impact.

Chino is a city in the western end of San Bernardino County, California, with Los Angeles County to its west and Orange County to its south in the Southern California region. The city of Chino offers access to international shipping ports, large fulfillment centers, private and international airports, and access to major freeways.

Chino's surroundings have long been a center of agriculture and dairy farming, providing milk products in Southern California and much of the southwestern United States. Chino's agricultural history dates back to the Spanish land grant forming Rancho Santa Ana Del Chino. The area specialized in fruit orchards, row crops, and dairy. The population was 91,403 at the 2020 census and is expected to reach 135,000-140,000 by year 2040. The daily commuting traffic inflow brings approximately 6,800-7,500 additional people into the city. With this increase in buildings and dwellings comes a significant increase in the residential population and daily commuters that travel through the city.

Two of our neighboring cities, Ontario and Eastvale, were also former dairy preserve areas. The southwest corner of Ontario, which borders the east side of our city, is building a master-planned community that will eventually bring 47,000 homes along with many commercial and retail properties. The population within the coming years is expected to exceed 160,000 residents. We are already experiencing increased traffic through our city as commuters from neighboring cities pass through Chino to the nearby highways. Eastvale continues to grow at nearly the same rate as Chino. Like the Ontario commuters, Eastvale residents also use our roadways during their commute to avoid traffic congestion on the freeway. This growth has demanded the re-engineering of roadways, and there is more development planned in the future. Many of these improvements have been finished, but with the steady growth comes continuing change. The Traffic Services Unit of the Chino Police Department is dedicated to maintaining a safe environment for drivers, bicyclists, and pedestrians as we deal with roadway congestion and increased traffic. Unfortunately, the steady growth of Chino has increased faster than the staffing of new officers. Officers are responsible for a constantly increasing number of residents, daily traffic, and crashes. These challenges have spread our police resources thin and have increased the need for additional enforcement.

Describe the problem(s) to be addressed, supported by current and relevant crash data. (most recent calendar year data/stats).

Chino has seen an increase in motorcycle traffic in the last few years. It is uncertain if it is because of the fuel prices, traffic congestion or for lower vehicle payments. We have found, with the crash investigations we have conducted, many of the riders we encounter are not properly trained or endorsed for motorcycle riding. Many of the crashes involve riders who recently purchased their motorcycles, or even borrowed a friend's motorcycle. From 2016-2020, there were only four fatal crashes that involved a motorcyclist. That amounted to one in seven. In calendar year 2021 and 2022 the city had a total of eight fatal crashes and five of them were motorcyclists. Three of the five crashes involved a motorcyclist hitting a parked vehicle or fixed object and one additional crash where the rider panicked and laid the bike down to avoid a crash before impacting a very slow-moving vehicle. Thankfully, calendar year 2024 had a significant downturn in motorcycle fatalities with zero.

There were several other motorcycle crashes where the rider suffered severe injuries, but the mechanism of injury or advanced medical care prevented fatalities. Many of these crashes were from inexperienced riders that did not use good judgement or were unable to effectively avoid an avoidable crash. One such a crash involved a rider on a motorcycle who did not apply proper braking techniques and lost control of the motorcycle. Thankfully he did not parish in the crash.

Based on real world statistics in the city of Chino, and the positive response to the implementation of the Motorcycle Safety Classes offered to willing participants as part of last year's Motorcycle Safety Grant

funding 2023-2024), it is evident that the citizens would benefit from the instruction that can be provided by trained officers. A curriculum that can offer experiences and statistics, coupled with practical riding training to improve not only the abilities of the rider, but their mindset as well.

The Chino Police Department has seen a recent uptick in the number of motorcycle traffic crashes. It is obvious that the state of California is known best for its' great weather, more specifically, great motorcycle riding weather. In fact, the highways and roadways that traverse the city of Chino are commonly used by motorcyclists on a daily basis throughout the year. There is a distinct difference in the crash rates between motorcycles and motor vehicles, and when broken down, it is evident the target measures to address the crash rates are directly related to the top three primary crash factors (PCF) that the Chino Police Department has identified: unsafe speed, improper turning, and right of way violations. These three primary crash factors serve as the framework for our Motorcycle Safety Presentations that we have implemented with our collaborative efforts with OTS currently, and in the past.

During the last Motorcycle Safety Grant Year (2023-2024), while participating in Motorcycle Safety Presentations and Training Days, it was evident, during my interaction with the class participants, that, generally, it was a common practice to register for a Motorcycle Training Class, which is comprised of approximately 5- hours of instruction and 10- hours of riding to obtain a motorcycle license. And after receiving the motorcycle license, no additional efforts were made to improve rider safety. The Chino Police Department's position during our Motorcycle Safety Presentations and Training Days is to promote life-long learners, and encourage motorcycle enthusiasts to attend and refer our Motorcycle Safety Presentations and Training Days to other motorcycle enthusiasts, regardless of skill level. Responsible, informed, and skilled motorcycle riders not only contribute to and promote traffic and public safety, but also contribute to the responsibility we all have to the overall safety of everyone within our transportation sphere.

Define the target population the grant intends to serve and how they are affected by the problem(s).

This grant will serve both the residents of the city of Chino as well as the motoring public that use and navigate our roadways on a daily basis. The Chino Police Department has been fortunate enough to have our enforcement efforts bolstered by Grant Funding, specifically by OTS in years past, and have found that with the collaborative efforts with OTS, and allied partnerships developed because of OTS, we are able to effectively and efficiently identify emerging trends that compromise public and traffic safety. The residents of the city Chino and the motoring public who traverse our city's highways and city streets are equally affected by traffic related issues. Moreover, traffic is perhaps one of the most glaring and obvious quality of life issues that everyone in a cityscape endures. "Traffic" is the number one quality of life issue that affects the residents of chino and the motoring public. There constant drive and need for our city to continue its' development, from a rural farming community, to a community that welcomes contemporary industrial business as well as providing residency to our ever growing population. Obviously, transportation to navigate this evolution is a necessity. Whether on foot, on a horse, in a bus, on a bicycle, or in a motor vehicle, the evolution of transportation combined with current city growth provides opportunities for law enforcement to engage with the community to identify trends and formulate solutions and countermeasures to enhance public and traffic safety.

As the number of people interested in motorcycle operation and use continue to grow, motorcycle traffic crash statistics should still serve as a reminder to all about the importance of prioritizing roadway safety; and roadway safety begins with the implementation of foundational knowledge and good safety instruction provided by the Chino Police Department in collaboration with OTS.

2. PERFORMANCE MEASURES

- Space permitting, include the OTS logo on all grant-funded print materials, graphics and paid or earned social media campaign grant objective; consult the OTS PIO and copy your OTS grant coordinator for specifics, format-appropriate logos, or if space does not permit the use of the OTS logo.
- Email the OTS PIO at pio@ots.ca.gov and copy your OTS grant coordinator at least 21 days in advance, or when first confirmed, a short description of any significant grant-related traffic safety event or program, particularly events that are highly publicized beforehand with anticipated media coverage so OTS has sufficient notice to arrange for attendance and/or participation in the event. If unable to attend, email the OTS PIO and coordinator brief highlights and/or results, including any media coverage (broadcast, digital, print) of event within 7 days following significant grant-related event or program. Media and program highlights are to be reflected in QPRs.

GENERAL ASSURANCES

In accordance with the Acts, the Regulations, and other pertinent directives, circulars, policy, memoranda, and/or guidance, the Recipient hereby gives assurance that it will promptly take any measures necessary to ensure that:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity, for which the Recipient receives Federal financial assistance from DOT, including NHTSA.”

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI of the Civil Rights Act of 1964 and other non-discrimination requirements (the Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these nondiscrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

SPECIFIC ASSURANCES

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted Highway Safety Grant Program:

1. The Recipient agrees that each “activity,” “facility,” or “program,” as defined in § 21.23(b) and (e) of [49 CFR part 21](#) will be (with regard to an “activity”) facilitated, or will be (with regard to a “facility”) operated, or will be (with regard to a “program”) conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
2. The Recipient will insert the following notification in all solicitations for bids, Requests For Proposals for work, or material subject to the Acts and the Regulations made in connection with all Highway Safety Grant Programs and, in adapted form, in all proposals for negotiated agreements regardless of funding source:
“The [name of Recipient], in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that in any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.”
3. The Recipient will insert the clauses of appendix A and E of this Assurance (also referred to as DOT order 1050.2A) [\[A\]](#) in every contract or agreement subject to the Acts and the Regulations.
4. The Recipient will insert the clauses of appendix B of DOT Order 1050.2A, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.
5. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
6. That where the Recipient receives Federal financial assistance in the form of, or for the acquisition of, real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.
7. That the Recipient will include the clauses set forth in appendix C and appendix D of this DOT Order 1050.2A, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:
 - a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
 - b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
8. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the

form of, personal property, or real property, or interest therein, or structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:

- a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - b. the period during which the Recipient retains ownership or possession of the property.
9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the State highway safety agency also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing NHTSA's access to records, accounts, documents, information, facilities, and staff. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective primary tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary tier participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.
4. The prospective primary tier participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary tier participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
