### Four-Year Capital Improvement Program Budget

#### Fiscal Years 2025-26 through 2030-31

The CIP projects have a numbering system and have been categorized within 9 Project Categories. Here is an example of the numbering system; project number ST201 – the ST represents a category titled Street Projects, the 21 represents the FY20-21, in which the project was established and the 1 represents the first Street Project of the fiscal year. The categories and their abbreviations are listed as follows: Miscellaneous (MS), Parks (PK), Public Facilities (PF), Water (WA), Sewer (SW), Sanitation (SN), Storm Drain (SD), Streets (ST), Traffic (TR) and Reimbursements from outside agencies (R). The last page of the Five-Year CIP includes a section titled Reimbursements and Non-Capital Improvement Project Group. This Group represents projects that don't meet the requirements to be classified as a Capital Improvement Project, but would like to be tracked along with all the CIP projects

The following schedules list the Four-Year Capital Improvement Program budget for Fiscal Years 2025-26 through 2030-31. The City's Capital Improvement Program (CIP) budget consists of a wide range of projects that improve the community's infrastructure and provide long-term benefit. Examples of such projects include construction and repair of roads and bridges, installation and upgrade of traffic signals, rehabilitation of water and sewer lines, construction and renovation of parks and City facilities, and installation of streetlights and sidewalks.

Included below is a brief description of the various schedules contained in the following pages:

educate voters about Proposition 36 which passed with 68 percent statewide support. ### **Community Engagement**

*Engage the community through community policing, neighborhood watch programs, youth programs, public safety forums, and social media. Uphold trust with our community and build new relationships, which can lead to more effective crime prevention strategies and improved public safety.*

The Department continues to make connecting with the community a key priority. In 2024 the Department hosted a number of Community Academies which provides residents an opportunity to gain a deeper understanding of the Department and how we provide service to the community. We hosted a total of 10 Community Academies during the year including academies specifically for the Spanish speaking community, Mandarin speaking community, seniors and youth. We also continued to make our Coffee with a Cop Program a top priority to provide informal engagement opportunities for our residents to connect with their officers. During the year we participated in National Night Out, Guardian Program, Senior Thanksgiving Luncheon, Special Olympics and other service opportunities. New this year was the Guardian program which is designed to provide our residents a way to provide information to the Department regarding loved ones with developmental disabilities in case they require a response from the police department. Also new is the Blue Envelope program which is designed for those who have special communications needs to provide first responders with critical information about their identity and their disabilities to improve outcomes.

### **Quality of Life**

*Provide superior customer service by listening to and quickly addressing community concerns. Identify root causes and use multidisciplinary approaches to address mental health issues, drug addiction, homelessness, traffic, and other community concerns. ### COPS Grant - 1304000

#### Code Explanation

Citizens' Option for Public Safety Grant. The State Budget Act of 2010 provides funds from the Local Safety and Protection Account in the State Transportation Fund to be available for purposes of the Citizens' Option for Public Safety grant. The COPS grant funds are allocated in accordance with the proportionate share of the State's total population that resides in each county and city. Each city is guaranteed a minimum of \$100,000 by Government Code Section 30061 and any additional amounts are contingent on vehicle license fee collections. A provision of the program allows monies to be directed toward funding costs related to salaries and expense for non-sworn personnel dedicated to supporting front line police operations, along with expenditures dedicated to upgrading equipment, purchasing new technology for sworn personnel and upgrading police vehicles.

## HUMAN RESOURCES/RISK MANAGEMENT DEPARTMENT

---

### **Description**

The Human Resources/Risk Management Department consists of three program areas: Personnel; General Liability/Workers' Compensation; and Employee Services.

The Personnel Program manages the City's employment system through the development and implementation of sound personnel practices. Service is provided to each City department with recruitment and employee relations matters. Recruitment of qualified personnel; labor negotiations; oversight of personnel actions; and compliance with State and Federal laws, such as those required through the Family and Medical Leave Act, Immigration and Naturalization Service and Americans with Disabilities Act, are important components of this Program's function.

The General Liability/Workers' Compensation Program serves both internal and external customers. It establishes comprehensive risk management and loss prevention guidelines and is responsible for the acquisition of excess liability insurance; public official bonds; claims administration; and joint efforts with defense counsel. It supports best practices in an ongoing effort to reduce loss exposure and ensure the safety of the public and City employees.

The Employee Services Program centralizes the accounting and management of the City's health, wellness and compensation plans. This includes implementing agreements that have been codified in resolutions adopted by City Council; memorandums of understanding with labor associations; and government mandates.

revamped with a modern design to capture attention and encourage participation. The Department's website will consistently rank high in search results through strategic keyword optimization and user-friendly design.

- Continue to create and deliver inclusive, high-quality special events that celebrate the City's diverse community, foster a sense of belonging, and community pride. These events will highlight the City's strong community connections, commitment to growth and opportunity, providing memorable experiences for residents, businesses, and visitors alike, while promoting Chino as a dynamic place 'Where Everything Grows.' The Department will add a Lunar New Year event. Adding a Lunar New Year event would offer a vibrant celebration of cultural diversity, fostering community engagement and inclusivity. It would provide an opportunity for residents to experience traditional festivities, food, and performances, strengthening the City's sense of unity and cultural appreciation.

### **Public Service Excellence Through Internal & External Partnership**

*To ensure the provision of quality City services, Chino will embrace and leverage the benefits of collaboration by establishing and maintaining strong working partnerships both within the organization and with external stakeholders. This means the City will promote teamwork and collaboration efforts to reach mutual goals, build trust and confidence in City government, and educate stakeholders on government processes. Developing strong and trusting partnerships helps the City stay on track to provide services that are wanted, needed, and appropriate. These strong partnerships will also facilitate the sharing of resources, information, and expertise to improve and streamline service delivery. The City will partner with other governmental jurisdictions to coordinate projects and initiatives to resolve issues of mutual interest.*

- Continue to expand and deliver essential support services, such as case management, counseling, and social services, to address the needs of individuals and families, especially those facing homelessness in our community. This initiative will involve close collaboration with the Chino Valley Unified School District (CVUSD), County of San Bernardino, faith-based groups, various nonprofits, and Police Department's Quality-of-Life Team. Additionally, staff will support the West End Regional Navigation Center design that will provide temporary housing and a full range of support services.
- Continue to foster a strong collaboration with the Chino Valley Unified School District to provide a variety of programs and services benefiting youth in the community. These programs include counseling, case management, resource centers, intervention and prevention programming, after school programs, and programs for parents of preschool children.

### **Responsible Long-Range Planning**

*As our City grows, it will continue to maintain a focus on responsible, balanced development. The City will also ensure orderly, well-planned growth, and maintenance of existing infrastructure and facilities. The City will continue in its commitment to provide long-range planning that contributes to the quality of life for the community.*

- Actively pursue effective strategies for facility and park development and maintenance. We will explore asset management and preventative maintenance programs and standards to move towards a more proactive versus reactive approach in facility maintenance. We will set up a plan to assess City facilities to document the current conditions creating the baseline on how to appropriately schedule and address facility needs. Additionally, we will create a system to prioritize and categorize Internal Service Fund (ISF) project submittals.
- Pursue the successful integration of City ground's staff into the CSPR Department by July 1, 2026, to streamline operations enhancing efficiency.
- We will continue our partnership with Lewis Operating Corporation to design and develop the new Community Center/San Bernardino County Library and Glenn E. Duncan Park in the Preserve community. The Department will analyze staffing, operational and maintenance capacities, and costs to establish a budget for FY 26-27. We are actively coordinating design and construction of the Splash Pad. These innovative developments will enhance our community and are projected to open in late spring 2027, providing valuable recreational opportunities for all residents.

## Community Services, Parks & Recreation Department – Goals and Accomplishments

---

### Financial Stability

*The viability of public sector economics is subject to many external factors and funding is often uncertain. With this understanding, the City commits to maintaining and expanding a financial structure that will support the current and future needs of the community and to managing this structure with integrity and diligence that promotes public trust and confidence.*

- Actively pursue sponsorships, donations, grants, fundraising strategies, and strategic partnerships, along with innovative funding solutions, to enhance and sustain our programs at the Chino Youth Museum, as well as capital improvement projects and impactful events.
- Continue effectively integrating volunteers and interns to enhance the Department's operational capacity and community engagement. This program will strategically engage community members to assist in non-critical tasks, enhancing service delivery without compromising quality. By leveraging volunteers in appropriate areas, the goal is to reduce the need for part-time staffing through the strategic use of volunteers and interns, thereby, lowering payroll expenses. The Department will manage this initiative with integrity, ensuring that volunteer roles are well-defined and provide a positive experience for all participants.

## SUCCESSOR AGENCY TO THE CHINO REDEVELOPMENT AGENCY

---

### **Description**

Effective February 1, 2012, all redevelopment agencies (RDA) in California were dissolved and replaced with successor agencies responsible for winding down the affairs of the former agencies. Among each successor agency's responsibilities is the disposition of its former RDA's assets, and ensuring that all enforceable obligations of the former RDA are perfected. On January 3, 2012, the Chino City Council elected to become the successor agency of its former redevelopment agency. The City, as successor agency, became operative on February 1, 2012. On that date, all assets, properties, contracts, and leases of the former redevelopment agency were transferred to the successor agency.

AB x1 26 requires the establishment of an Oversight Board to supervise the dissolution of each redevelopment agency, including the review and approval of all actions taken by a successor agency to implement the dissolution process. Oversight boards have fiduciary responsibilities to the holders of enforceable obligations and to the taxing entities that benefit from distributions of property tax.

Instead of the budget document, the City of Chino, acting as the Successor Agency to the former Chino Redevelopment Agency is required to prepare a Recognized Obligation Payment Schedule (ROPS) in accordance with Health & Safety Code 34177 (l) (1) (2) & (3) (added by AB 1X26). The ROPS lists all of the debts and obligations of the former Chino Redevelopment Agency, to include bond indebtedness, promissory notes, contracts, administration and operating expenses, and legally binding agreements. The schedule also lists a source of funding for each debt obligation.

Effective July 1, 2018, the Countywide Oversight Board (CWOB) must review and approve each Recognized Obligation Payment Schedule (ROPS) in accordance with Senate Bill No. 107 (SB107) and Health and Safety Code Section 34179.

ROPS schedules are available at the City of Chino website at [www.cityofchino.org](http://www.cityofchino.org).
