NEW BUSINESS

11. Appeal to the City Council of the Planning Commission's Denial of an Appeal of a Written Decision by the Development Services Director. Appeal of the Planning Commission's denial of an appeal of a written decision by the Development Services Director related to the interpretation of how Floor Area Ratio is enforced for projects located within the Mixed Use Overlay Districts.

Staff Report By: Michael Hitz, Principal Planner, AICP and Warren Morelion, Director of Development Services

RECOMMENDATION: That the City Council 1) deny the appeal and affirm that the Planning Commission is not required to issue specific findings of fact in connection with its decision to uphold the interpretation by the Director of Development Services for the calculation and enforcement of Floor Area Ratio ("FAR") in the Mixed Use Overlay District ("MUO") and 2) deny the appeal and affirm the decision by the Planning Commission to uphold the interpretation of the Zoning Code by the Director of Development Services regarding the calculation and enforcement of FAR in the MUO district.

Mayor Ulloa opened the public hearing.

Michael Hitz, Principal Planner, provided a presentation on the item. Mr. Hitz noted the appellant sent an email on April 7, 2025, which was included in the agenda packet, that expressed concerns the appeal was not published in the Chino Champion newspaper. Mr. Hitz explained in detail why there is no noticing requirement for this type of appeal.

Mr. Hitz shared that two email correspondences were received today, one from Linda Zeigler, and one from the appellant, Mr. Nigg. Both were provided to the City Council and will be saved to the meeting record.

City Attorney Galante presented a report on the item, detailing the implications of both a vote to deny the appeal and uphold the Planning Commission's decision, as well as a vote to approve the appeal. Mr. Galante noted that the City Council cannot legally consider issues raised by the appellant outside of the appeal, and it would not be appropriate for the appellant to address any issues that were not raised before the Planning Commission. No specific project should be discussed as part of this appeal.

Robert Nigg, appellant, addressed the City Council.

Mayor Ulloa noted the email submission by Mr. Nigg was provided with insufficient time for City Council review.

Mayor Ulloa asked if the Department of Housing and Community Development (HCD) has addressed Floor Area Ratio (FAR), and City Attorney Galante stated he is not aware of a general statewide interpretation of FAR, and Warren Morelion, Director of Development Services, agreed.

Maria Torres, Chino resident, spoke regarding frustration over the HCD's rigid rules which seem to limit the ability to address or challenge issues.

Mayor Ulloa asked Mr. Nigg to clarify if his email submission today includes the same information included in his appeal, and Mr. Nigg confirmed the newly submitted document provides additional detail with no new information, except regarding the appeal heard as a quasi-judicial hearing.

Mayor Ulloa stated the City Council deeply cares about the community, noting the difficulty in accepting state-imposed housing regulations, and discussed challenges faced.

City Attorney Galante explained that due process prohibits discussing the project referenced in the appeal. Mr. Galante commented on the additional information submitted after the appeal was filed and explained that new arguments or details cannot be considered, as they were not part of the initial appeal.

City Attorney Galante reviewed the changes requested by HCD between the ordinance's first reading identified by Mr. Nigg and its final adoption by City Council at the end of 2024, and confirmed each requirement was specifically requested by HCD. He clarified that under the City's municipal code and all specific plans for multifamily residential properties, FAR (Floor Area Ratio) does not apply.

Hearing no additional requests to address the City Council, Mayor Ulloa closed the public hearing.

Council Member Comstock shared that she and her colleagues have traveled to Sacramento to oppose the legislation and have engaged with HCD regarding the Housing Element, spoken to elected officials, and argued against these policies. Council Member Comstock reviewed key points in the appeal staff report, explained her position, and expressed support for the residents.

Mayor Pro Tem Burton expressed gratitude to Mr. Nigg for his work. He also thanked City Staff and the Planning Commission for their time and efforts. He spoke regarding his disagreement with Sacramento and noted his best interests for the people in the City of Chino.

Council Member Lucio shared insights from his experience in Washington D.C. and the contrast between federal and state and local policy. He shared the pressures the city faces, especially those regarding the housing element. He noted that he is not willing to jeopardize taxpayer dollars by inviting lawsuits, as seen in other cities. He acknowledged Mr. Nigg's work on the appeal and thanked the residents in attendance.

Council Member Flores thanked residents for their comments and encouraged them to write to local legislators about policies impacting the Chino community.

Motion by Council Member Comstock, seconded by Council Member Flores, to 1) deny the appeal and affirm that the Planning Commission is not required to issue specific findings of fact in connection with its decision to uphold the interpretation by the Director of Development Services for the calculation and enforcement of Floor Area Ratio ("FAR") in the Mixed Use Overlay District ("MUO") and 2) deny the appeal and affirm the decision by the Planning Commission to uphold the interpretation of the Zoning Code by the Director of Development Services regarding the calculation and enforcement of FAR in the MUO district. The motion carried by the following vote:

AYES: ULLOA, BURTON, COMSTOCK, FLORES, AND LUCIO

NOES: NONE.

ABSENT: NONE.
