#### PUBLIC IMPROVEMENT AGREEMENT

THIS PUBLIC IMPROVEMENT AGREEMENT (this "Agreement") is entered into this 5<sup>th</sup> day of July, 2022, by and between the CITY OF CHINO, a municipal corporation, organized and existing in the County of San Bernardino, under and by virtue of the laws of the State of California, ("CITY"), and Yorba XC, LLC ("DEVELOPER").

#### **RECITALS**

- A. The Chino Valley Unified School District (CVUSD) is the owner of certain real property located in the City of Chino, County of San Bernardino, State of California (the "Property"), as described on Exhibit "A", which Developer proposes to develop and construct certain works of improvement thereon, as hereafter set forth.
- B. Developer entered into an agreement with CVUSD, which requires Developer to construct sidewalk, asphalt concrete overlay, streetlights, parkway landscaping, striping and traffic controls, sewer, domestic water, and fire hydrants at the site location on Ramona Avenue (the "Project"). Based on the authorization provided by the agreement between Developer and CVUSD, Developer is authorized and did submit an application with the City for Site Approval No. 20-0026 (PL20-0029), which application was granted, as extended. CVUSD further acknowledges and consents to the terms of this Agreement, as demonstrated by its signature on the Acknowledgement following the signature page on this Agreement.
- C. The City desires to assure that said improvements proposed for the Project will be constructed in a good workmanlike manner and in accordance with all applicable laws, statues, ordinances, resolutions and regulations now in force and effect in the City of Chino and the State of California, all of which are incorporated herein.
- D. The Developer acknowledges familiarity with the various requirements for public improvements contained in the Chino Municipal Code and agrees to comply therewith.

#### **COVENANTS**

Based upon the foregoing Recitals which are incorporated herein by reference and in consideration of City's site plan or other entitlements for the Property and permitting development of the Property to proceed, Developer agrees to timely perform all of its obligations as set forth herein.

#### 1. Construction Obligations.

1.1. Works of Improvement. Developer agrees, at its sole cost and expense, to construct or install, or cause to be constructed or installed the street, drainage, domestic water, sanitary sewer, street lighting, landscaping, utility, and other improvements more fully described as <a href="Exhibit">Exhibit "B"</a> attached hereto (the "Works of Improvement"), as the same may be supplemented and revised from time to time as set forth in this Agreement (said plans and specifications, together with all related documents, the "Plans"). The estimated construction cost for the Works of Improvement is \$1,066,400.00.

- 1.2. Other Obligations Referenced in Conditions of Tentative Map Approval. In addition to the foregoing, Developer shall satisfy all of the other Conditions associated with the Project and the Property. The Conditions associated with the Map are included in <a href="Exhibit">Exhibit "B"</a> attached hereto.
- 1.3. Intent of Plans. The intent of the Plans referenced in Section 1.1 is to prescribe a complete work of improvement which Developer shall perform or cause to be performed in a manner acceptable to the City Engineer, (or designee), and in full compliance with all codes and the terms of this Agreement. Developer shall complete a functional or operable improvement or facility, even though the Plans may not specifically call out all items of work required for Developer's contractor to complete its tasks, incidental appurtenances, materials, and the like. If any omissions are made or information necessary to carry out the full intent and meaning of the Plans, Developer or its contractor shall immediately notify its design engineer who will seek approval of the City Engineer for furnishing of detailed instructions. In the event of any doubt or question arising regarding the true meaning of any of the Plans, reference shall be made to the City Engineer whose decision thereon shall be final.

Developer recognizes that the Plans consist of general drawings. All authorized alterations affecting the requirements and information given on the Plans shall be in writing and approved by the City Engineer. The Plans shall be supplemented by such working or shop drawings as are necessary to adequately control the work. Without the City Engineer's prior written approval, no change shall be made by Developer or its contractor to any plan, specification, or working or shop drawing after it has been stamped as approved.

- 1.4. <u>Performance of Work</u>. Developer shall furnish or cause to be furnished all materials, labor, tools, equipment, utilities, transportation, and incidentals required to perform Developer's obligations under this Agreement.
- 1.5. Changes in the Work. The City Engineer, without invalidating this Agreement and without notification to any of the sureties or financial institutions referenced in Paragraph 4, may order extra work or may make changes by altering or deleting any portion of the Works of Improvement as specified herein or as deemed necessary or desirable by the City Engineer as determined necessary to accomplish the purposes of this Agreement and to protect the public health, safety, or welfare. The City Engineer shall notify Developer or its contractor in writing (by Correction Notice) at the time a determination has been made to require changes in the work. No field changes performed or proposed by Developer or its contractor shall be binding on City unless approved in writing by the City Engineer. The City and Developer may mutually agree upon changes to the Works of Improvement, subject to the security requirements in Section 4.
- 1.6. <u>Defective Work</u>. Developer shall repair, reconstruct, replace, or otherwise make acceptable any work found by the City Engineer to be defective.
- 1.7. No Warranty by City. The Plans for the Works of Improvement have been prepared by or on behalf of Developer or its consultants or contractors, and City makes no representation or warranty, express or implied, to Developer or to any other person regarding the adequacy of the Plans or related documents.

- 1.8. <u>Authority of the City Engineer</u>. In addition to the authority granted to the City Engineer elsewhere in this Agreement, the City Engineer shall have the authority to decide all questions which may arise as to the quality and acceptability of materials furnished and work performed, and all questions as to the satisfactory and acceptable fulfillment of the terms of this Agreement by Developer and its contractor.
- 1.9. <u>Documents Available at the Site</u>. Developer shall keep a copy of all approved Plans at the job site and shall give access thereto to the City's inspectors and engineers at all times.
- 1.10. <u>Inspection</u>. Developer shall have an authorized representative on the job site at all times during which work is being done who has full authority to act for Developer, or its design engineer, and Developer's contractor(s) regarding the Works of Improvement. Developer shall cause its contractor to furnish the City with every reasonable facility for ascertaining whether or not the Works of Improvement as performed are in accordance with the requirements and intent of this Agreement, including the Plans. If the City inspector requests it, the Developer or its contractor, at any time before acceptance of the Works of Improvement, shall remove or uncover such portions of the finished work as may be directed which have not previously been inspected. After examination, the Developer or its contractor shall restore said portions of the work to the standards required hereunder. Inspection or supervision by the City Engineer (or designee) shall not be considered as direct control of the individual workmen on the job site. City's inspectors shall have the authority to stop any and all work not in accordance with the requirements contained or referenced in this Agreement.

The inspection of the work by City shall not relieve Developer or its contractor of any obligations to fulfill this Agreement as herein provided, and unsuitable materials or work may be rejected notwithstanding that such materials or work may have been previously overlooked or accepted.

1.11. Compliance With Law; Applicable Standards for Improvements. In addition to the express provisions of this Agreement and the Plans, Developer shall cause construction of the Works of Improvement to be completed in accordance with all other applicable federal, state, and local laws, ordinances, rules and regulations. In addition, without limiting the foregoing, the Developer shall, at its expense, obtain and comply with the conditions of all necessary permits and licenses for the construction of the Works of Improvement. The Developer shall also give all necessary notices and pay all fees and taxes as required by law.

Developer shall construct the improvements in accordance with the City standards in effect at the time of the adoption of this Agreement. City reserves the right to protect the public safety or welfare or comply with applicable Federal or State law or City zoning ordinances.

1.12. <u>Suspension of Work</u>. The City Engineer shall have authority to order suspension of the work for failure of the Developer's contractor to comply with law pursuant to Section 1.12. In case of suspension of work for any cause whatsoever, Developer and its contractor shall be responsible for all materials and shall store them properly if necessary, and shall provide suitable interim drainage and/or dust control measures, and erect temporary structures where necessary.

- 1.13. Erosion and Dust Control and Environmental Mitigation. All grading, landscaping, and construction activities shall be performed in a manner to control erosion and prevent flooding problems. The City Engineer shall have the authority to require erosion plans to prescribe reasonable controls on the method, manner, and time of grading, landscaping, and construction activities to prevent nuisances to surrounding properties. Plans shall include without limitation temporary drainage and erosion control requirements, dust control procedures, restrictions on truck and other construction traffic routes, noise abatement procedures, storage of materials and equipment, removal of garbage, trash, and refuse, securing the job site to prevent injury, and similar matters.
- 1.14. Final Acceptance of Works of Improvement. After Developer has completed all of the Works of Improvement, Developer shall then request a final inspection of the work. If items are found by the City's inspectors to be incomplete or not in compliance with this Agreement or any of the requirements contained or referenced herein, City will inform the Developer or its contractor of such items. After the Developer has completed these items, the procedure shall then be the same as specified above for the Developer's or its contractor's initial request for final inspection. If items are found by City's inspectors to be incomplete or not in compliance after two (2) "final" inspections, the City may require the Developer or its contractor, as a condition to performing further field inspections, to submit in writing a detailed statement of the work performed subsequent to the date of the previous inspection which was found to be incomplete or not in compliance at that time. Developer shall be responsible for payment to City Engineer of re-inspection fees in the amount necessary to cover the City's costs for additional final inspections, as determined by the City Engineer.

No inspection or acceptance pertaining to specific parts of the Works of Improvement shall be construed as final acceptance of any part until the overall final acceptance by the City Engineer is made. The City Engineer shall make a certification of completion and acceptance on the Works of Improvement by recordation of a Notice of Acceptance on behalf of the City. Final acceptance shall not constitute a waiver by the City Engineer of defective work subsequently discovered.

The date on which the Works of Improvement will be considered as complete shall be the date of the Notice of Acceptance.

- 1.15. <u>Vesting of Ownership.</u> Upon recordation of the Notice of Acceptance, ownership of the Works of Improvement shall vest in the City.
- 1.16. <u>Developer's Obligation to Warn Public During Construction.</u> Until recordation of the Notice of Acceptance, Developer shall give good and adequate warning to the public of any dangerous condition of the Works of Improvements, and shall take reasonable actions to protect the public from such dangerous condition. Until recordation of the Notice of Acceptance, Developer shall provide forty-eight (48) hours' advance written notice to all neighboring property owners and tenants affected by Developer's operations or construction of the hours, dates and duration of any planned construction activities.
- 1.17. <u>Injury to Public Improvements, Public Property or Public Utility.</u> Until recordation of the Notice of Acceptance of the Works of Improvement, Developer assumes responsibility

for the care and maintenance of, and any damage to, the Works of Improvements. Developer shall replace or repair all Works of Improvements, public property, public utility facilities, and surveying or subdivision monuments and benchmarks which are destroyed or damaged for any reason, regardless whether resulting from the acts of the Developer, prior to the recordation of the Notice of Acceptance. Developer shall bear the entire cost of such replacement or repairs regardless of what entity owns the underlying property. Any repair or replacement shall be to the satisfaction, and subject to the approval, of the City Engineer.

Neither the City, nor any officer or employee thereof, shall be liable or responsible for any accident, loss or damage, regardless of cause, occurring to the work or Works of Improvements prior to recordation of the Notice of Acceptance of the work or improvements.

#### 2. <u>Time for Performance</u>.

- 2.1. Commencement and Completion Dates. Subject to Sections 2.2 and 2.3 below, Developer shall (i) commence with construction and installation of the Works of Improvement thirty (30) days following City's approval of the Plans ("Commencement Date"); and (ii) complete or cause to be completed all of the Works of Improvement within two (2) years after the Commencement Date. In the event good cause exists as determined by the City Engineer, the time for commencement of construction or completion of the Works of Improvement hereunder may be extended by up to three (3) additional one year periods. Extensions shall be executed in writing by the City Engineer. The City Engineer in his or her sole discretion determines whether or not the Developer has established good cause for an extension. As a condition of such extension, the City Engineer may require Developer to furnish new security guaranteeing performance of this Agreement, as extended, in an increased amount to compensate for any increase in construction costs as determined by the City Engineer. If Developer requests and is granted an extension of time for completion of the improvements, City may apply the standards in effect at the time of the extension.
- 2.2. Phasing Requirements. Notwithstanding the provisions of Section 2.1, the City reserves the right to control and regulate the phasing of completion of specific Works of Improvement as required to comply with applicable City ordinances, regulations, and rules relating to the timely provision of public services and facilities. In addition to whatever other remedies the City may have for Developer's failure to satisfy such phasing requirements, as the same now exist or may be amended from time to time, Developer acknowledges City's right to withhold the issuance of further building permits on the Property until such phasing requirements are satisfied. Prior to issuance of building permits, Developer shall provide satisfactory evidence that all applicable requirements that are a condition to issuance of building permits have been satisfied. Such requirements may include the payment of fees, construction of improvements, or both. Final inspections or issuance of Certificates of Occupancy may be withheld from the Developer by the City, if, upon a determination by the City Engineer, completion of specific Works of Improvements or other requirements associated with the development of the Property have not been completed to the City Engineer's satisfaction.
- 2.3. <u>Force Majeure</u>. Notwithstanding the provisions of Section 2.1, Developer's time for commencement and completion of the Works of Improvement shall be extended for the

period of any enforced delay caused due to circumstances beyond the control and without the fault of Developer, including to the extent applicable adverse weather conditions, flood, earthquakes, strikes, lockouts, pandemics, acts or failures to act of a public agency (including City), required changes to the scope of work required by City, and similar causes; provided, however, that the period of any enforced delay hereunder shall not include any period longer than five (5) days prior to City's receipt of a written notice from Developer or its contractor detailing the grounds for Developer's claim to a right to extend its time for performance hereunder. The City Engineer shall evaluate all claims to Force Majeure and make a reasonable determination regarding the length of any extension of time for commencement and/or completion of the Works of Improvement and the City Engineer's decision shall be final.

2.4. <u>Continuous Work</u>. After commencement of construction of the Works of Improvement (or separate portion thereof), Developer shall cause such work to be diligently pursued to completion, and shall not abandon the work for a consecutive period or more than thirty (30) days, events of Force Majeure excepted.

#### 3. <u>Labor</u>.

- 3.1. <u>Labor Standards</u>. This Agreement is subject to, and Developer agrees to comply with, all of the applicable provisions of the Labor Code including, but not limited to, the wage and hour, prevailing wage, worker compensation, and various other labor requirements in Division 2, Part 7, Chapter 1, including section 1720 to 1740, 1770 to 1780, 1810 to 1815, 1860 to 1861, which provisions are specifically incorporated herein by reference as set forth herein in their entirety. Developer shall expressly require compliance with the provisions of this Section in all agreements with contractors and subcontractors for the performance of the Works of Improvement.
- 3.2. <u>Nondiscrimination</u>. In accordance with the California Fair Employment and Housing Act ("FEHA"), California Government Code Section 12940 *et seq.*, Developer agrees that Developer, its agents, employees, contractors, and subcontractor performing any of the Works of Improvement shall not discriminate, in any way, against any person on the basis of race, ethnicity, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, genetic information, marital status, sex, gender, gender identity, gender expression, age, sexual orientation, or military and veteran status. Developer shall expressly require compliance with the provisions of this Section in all agreements with contractors and subcontractors for the performance of this Agreement.
- 3.3. <u>Licensed Contractors</u>. Developer shall cause all of the Works of Improvement to be constructed by contractors and subcontractors with valid California Contractors' licenses for the type of work being performed. All of Developer's contractors and subcontractors shall obtain a valid City of Chino business license prior to performing any work pursuant to this Agreement. - (b) In the event of draw by the City on a letter of credit, the City may elect, in its sole and absolute discretion, to apply any such funds drawn to the obligations secured by such letter of credit or to hold such funds in an account under the control of the City, with no interest accruing thereon for the benefit of the Developer. The City's right to draw upon or use the security is in addition to any other remedy available to City. The parties acknowledge that the estimated costs and security amounts may not reflect the actual cost of construction of the improvements and, therefore, City's damages for Developer's default shall be measured by the cost of completing the required improvements. The City may use the sums provided by the securities for the completion of the Works of Improvement in accordance with the plans. In the event the Developer fails to cure any default under this Agreement within 20 days after the City mails a notice of such default to the Developer and the Developer's surety, Developer authorizes the City to perform the obligation for which Developer is in default and agrees to pay the entire cost of such performance by the City. The City may take over the work and complete the Works of Improvement, by contract or by any other method City deems appropriate, at the

expense of the Developer. In such event, City, without liability for doing so, may complete the Works of Improvement using any of Developer's materials, appliances, plans and other property that are at the work site and that are necessary to complete the Works of Improvement.

- 8.3. Remedies Not Exclusive. In any case where this Agreement provides a specific remedy to City for a default by Developer hereunder, the Developer agrees that the choice of remedy or remedies for Developer's breach shall be in the discretion of the City. Additionally, any remedy specifically provided in this Agreement shall be in addition to, and not exclusive of, City's right to pursue any other administrative, legal, or equitable remedy to which it may by entitled.
- 8.4. Attorney's Fees and Costs. In the event that Developer fails to perform any obligation under this Agreement, Developer agrees to pay all costs and expenses incurred by City in securing performance of such obligations, including costs of suit and reasonable attorney's fees. In the event of any dispute arising out of Developer's performance of its obligations under this Agreement or under any of the Security Instruments referenced herein, the prevailing party in such action, in addition to any other relief which may be granted, shall be entitled to recover its reasonable attorney's fees and costs. Such attorney's fees and cost shall include fees and costs on any appeal, and in addition a party entitled to attorney's fees and costs shall be entitled to all other reasonable costs incurred in investigating such action, taking depositions and discovery, retaining expert witnesses, and all other necessary and related costs with respect to the litigation. All such fees and costs shall be deemed to have accrued on commencement of the action and shall be enforceable whether or not the action is prosecuted to judgment.
- 8.5. <u>Waiver</u>. No waiver by the City of any breach or default by the Developer shall be considered valid unless in writing, and no such waiver by the City shall be deemed a waiver of any subsequent breach or default by the Developer.
- 9. Indemnity/Hold Harmless. City or any officer, employee or agent thereof shall not be liable for any injury to persons or property occasioned by reason of the acts or omissions of Developer, its agents, employees, contractors and subcontractors in the performance of this Agreement. Developer further agrees to protect, defend, indemnify and hold harmless City, its officials, boards and commissions, and members thereof, agents, and employees from any and all claims, demands, causes of action, liability or loss of any sort, because of, or arising out of, acts or omissions of Developer, its agents, employees, contractors and subcontractors in the performance of this Agreement, except for such claims, demands, causes of action, liability or loss arising out of the sole active negligence of the City, its officials, boards, commissions, the members thereof, agents and employees, including all claims, demands, causes of action, liability or loss because of or arising out of, in whole or in part, the design or construction of the improvements. This indemnification and agreement to hold harmless shall extend to injuries to persons and damages or taking of property resulting from the design or construction of said Project, and the public improvements as provided herein, and in addition, to adjacent property owners as a consequence of the diversion of waters from the design and construction of public drainage systems, streets and other improvements. Recordation of the Notice of Acceptance by the City of the Works of Improvements shall not constitute an

assumption by the City of any responsibility for any damage or taking covered by this Section. City shall not be responsible for the design or construction of the property to be dedicated or the improvements pursuant to the approved improvement plans or map, regardless of any negligent action or inaction taken by the City in approving the plans or map, unless the particular improvement design was specifically required by City over written objection by Developer submitted to the City Engineer before approval of the particular improvement design, which objection indicated that the particular improvement design was dangerous or defective and suggested an alternative safe and feasible design.

After recordation of the Notice of Acceptance, the Developer shall remain obligated to eliminate any latent defect in design or dangerous condition caused by the design or construction defect for a period of one (1) year; however, Developer shall not be responsible for routine maintenance. It is the intent of this section that Developer shall be responsible for all liability for design and construction of the improvements installed or work done pursuant to this Agreement and that City shall not be liable for any negligence, nonfeasance, misfeasance or malfeasance in approving or reviewing any work or construction. The improvement security shall not be required to cover the provisions of this Paragraph.

Developer shall reimburse the City for all costs and expenses, including but not limited to fees and charges of architects, engineers, attorneys, and other professionals, and court costs, incurred by City in enforcing this Section.

- 10. <u>Developer's Indemnity of Project Approval</u>. Developer shall defend, indemnify, and hold harmless the City and its agents, officers, and employees from any claim, action, or proceeding against the City or its agents, officers, or employees to attack, set aside, void, or annul, an approval of the City, advisory agency, appeal board, or legislative body concerning the Project. The City shall promptly notify the Developer of any claim, action, or proceeding and cooperate fully in the defense of any such claim, action, or proceeding. In the event City fails to promptly notify the Developer of any claim, action, or proceeding, or if the City fails to cooperate in the defense, the Developer shall not thereafter be responsible to defend, indemnify, or hold harmless the City. Nothing in this Section prohibits the City from participating in the defense of any claim, action, or proceeding if City bears its own attorney's fees and costs and defends the action in good faith. Developer shall not be required to pay or perform any settlement unless the settlement is approved by the Developer.
- 11. <u>Insurance Requirements</u>. Developer, at Developer's sole cost and expense and for the full term of this Agreement and any extensions thereto, shall obtain and maintain all of the following minimum insurance requirements in a form approved by the City's authorized designee for Risk Management prior to commencing any work:
